Amazing game, simple and addictive. 5 stars. Perfectly executed.. 10/10 HAVE TURRETS. Normally, this is where I'd put a joke review before the real review. eh screw it, I'll do it here too!!! Joke Review: WELCOME TO THE 9/11 SIMULATOR!!! Real Review: It's not a bad title. It's a nice casual game about planes shooting each other down. Modes include Free For All (Death Match), single life team death match, Ball (Football/soccer/hockey), and Team Base Destruction. Not only is this a free game, but it has achievements too (If you're an achievement junkie). So really, you're not losing anything. The only real criticism I have is that the community is pretty much toast. Though you'll find life in about 3-6 servers. The rest are simply filled with

bots. So, you could say it has more life than Gun Monkeys. Good game for casuals, though a little skill will be involved. So I guess hardcore gamers might like this title too. Just don't expect it to be a stellar, award-winning title.. I recommend this game to everyone because it is awesome, you should all buy it now.. They made this game free without giving something in return to us, the people who actually paid for this. This is what getting ripped off is.. Hockey? Nukes? Planes? 2-D? Multiplayer? This one's for you my friend!. Good game . I have play a little bit , and i have a little review. Graphics : Good , My Eyes are OK. Sounds : Very Good for this engine.. Best game ever. My 2000+ hours are enough evidence of it.. A fun game. Simple, challenging, but not too challenging.
