## orbital gear soundtrack

Its classic! Get whole serie (include CM2)! We waiting for new CM games... Hidden trait: Doesn't appear in-game.. Good game but milestone needs to take a look back at 'MXGP' the first one. The in air control was sooooo much better and the small things in the game still make it fun to play.. Those who loved Pharaoh series, this will not disappoint.. Great game!. I have been playing a few shmups of late mostly on my megadrive, Gynoug, Thunderforce 4, Rtype 3 on the GBA and also Gradius rebirth on the Wii. Thunderforce being my favoirate shmup. This although not as good as Thunderforce is still a pretty good shmup for only a couple of quid probably on par with Gradius Rebirth in quality however is more playable due to the lower difficulty. Powerful feeling weopens, plenty of onscreen action with a tirade of bullets and enemies barely allowing you to escape by the skin of your teeth. Should tide me over until I buy hellfire or Musha (probably a repro at these prices) on the megadrive.. I am now going to review every card in this pack individually.

- *Mimic is very situational, and I'm gonna say it's terrible.*
- *Mix Phenomenon is when your mixtape sucks but you're in denial (thanks Dunning-Kruger) so you enforce it anyways.*
- *Piyopiyo Procession is one of those "home" cards when you go for Wins norma. Synergizes great with all characters with +2 atk. It is also the antithesis of Kyoko; put it on her house and laugh maniacally when she lands on it.*
- *Passionate Research is a staple of every deck; not using it is doing yourself a disservice.*
- *Scary Solitation synergizes great with Sweet Breaker. Otherwise, I avoid it in favor of better cards.*
- *Sealed Memories is useful sometimes, but synergizes best with Sweet Breaker (who would've guessed?)*
- *Shield Counter is amazing for passive characters who are unfortunate enough to go against battle characters. Definitely useful in a non-battle deck as a defensive card.*
- *Ambush is great for Battle Characters or those who enjoy turning the tables upon being chased.*
- *Lonely Chariot is best used with high-HP characters. Not the best card, but definitely useful if you really need to roll a 5 for movement. Consistently. For some reason. I guess.*
- *President's Privilege is amazing if you rely on high-cost cards but go for Stars norma anyways.*
- *Tactical Retreat is a good defensive card in general; this card has saved my remaining 1hp many times over. Each card has its uses; I'd recommend it to expand your options in the brutal warzone that is a dice board game.*

It's a well designed game with a nice story. I would like to see controller support.. I like this loco.  
Nice modeled, good physics.

Scenario: <http://steamcommunity.com/sharedfiles/filedetails/?id=720402970>. Find clues and solve puzzles using science..  
[Same game from Rugby Challenge 1](#), absolute rubbish. Sadly it's the only Rugby Union game we have. Gameplay isn't great and the Graphics are awful for a 2016 released game.... It is good because it is compatible with mac and it is cod. But i still dont understand why they couldnt of just made black ops compatible with mac and not have to make a whole other game!. Zombies Just... Zombies!  
[Multiplayer? NO](#)  
[Campaign? NO](#)  
[ZOMBIES!!!](#), kinda gay tbh. Good VR but it's just a single first person offline walk in the forest not MMO at all
