Dont install unless your rich cause this♥♥♥♥♥♥is pay 2 win. all u do is use E and kill only IF u are pay 2 win, if your not rip u cause u have crap for stuff and u lose xd..... D;. This is exactly game of the year. Musics (I mean song about boar) are awesome And the pics of girls are beautiful (also the girls themselves are). I saved pudding 10/10. This is a waste of money. Bought it exclusively for the multiplayer, and the multiplayer does not work. Worst purchase I have ever made.. Really stupid that we cant have a private zombies match. not worth the $40 i spent on this game. Fun game so far. I only had to rage quit a few times from the difficulty, lol. Looking forward to trying it when my Oculus Touch arrives.. Fun strategy game. Reminds me of Galcon and Planetwars, but the choice between upgrading factories and producing ships is an interesting addition.. This game has a really a good physics based concept, & exceeded my expectations. Definitely more of a puzzler than platformer where walking & jumping is minimal, with an emphasis on creating bridges, levers, swings, ramps, even catapults to manipulate your way forward. Even though I can\u2019t freehand draw with a mouse, my sloppy lines would eventually find a way to work.

There are a few other types of puzzles along the way, with the later more complex levels being engaging & quite juicy. A bit short, a bit sublime, & a must for physics-puzzle gamers.. Very lovely and beatiful skin. It really looks like in the comic book.

niceeeeeeeeeeee!. A decent mystery\/romance game set in the classic Closed Circle mystery setting. Writing and editing is good. Relatively short for a VN (I got all the endings in about 12 hours.) Interface has no real issues. You get your own sprite and have some control over your appearance. CG art style doesn't align super well with the main game sprites, but CGs don't feature prominantly and it does remember your appearance settings for CGs.

All in all I quite enjoyed the game. There's a lot of endings, and it was fun permutating through the various text to try and find them, though three of them were hard for me to find.. I play DMO always disconnet and I played DMO uncomfortable because every play DMO always disconnet server and never fix the problem disconnet game server if this service was disappointing DMO game. Step One: Buy and install this DLC
Step Two: Run Crypt of the Necrodancer
Step Three: Use Custom Music option to change every single level's song into Notorious D.I.G. (Fortissimole)
Step Four: Play the game
Step Five: Appreciate true art

Now that the Amplified DLC is out of early access this DLC includes 9 songs. 5-1, 5-2, and 5-3 both shopkeeper and non-shopkeeper versions, and the three boss songs.
(I would seriously have bought this DLC at full price just for Notorious D.I.G. It's a bonus that I got all the other songs too :D).
Quick review.

Shadow Tactics is a stealth game where you control up to 5 characters.

The stages are littered with guards, hiding places, and interactive objects. Each character has unique abilities.

Different challenges you'll encounter can require quite a bit of strategy which is great. It always feels like there are multiple ways to tackle a problem because of the vast amount of options available to you. That's vital in a stealth game.

The story was slow at first, but eventually hits a point where I realized I cared, and I certainly had no problem finishing it out to see what would happen. It won't be anything you rush to tell your friends about though. It was endearing to say the least.

There isn't much bad here, except that sometimes the puzzle of how to get through certain places was so difficult that my solutions seemed to be abusive to the game. It felt cheap at times, but you gotta do what ya gotta do, am I right?

8\/10.
