REPAIRS ADVISER

LOCATION OF SAFETY LABELS

Location of safety labels (decals) can vary from unit to unit. Refer to appropriate Operation and Maintenance Manual, and Parts Manual for your unit.

Always replace damaged or faded decals.

UNAUTHORIZED MODIFICATIONS

IMPORTANT

If you need more information or have any questions or concerns about safe operating procedures or working wheel loader correctly in a particular application or in specific conditions of your individual operating environment, please consult your local TEREX representative.

Any modification made without authorization or written approval from TEREX can create a safety hazard, for which machine owner must be held responsible.

For safety's sake, replace all OEM parts with correct authorized or genuine TEREX part. For example, not taking time to replace fasteners, bolts or nuts with correct replacement parts could lead to a condition in which safety of critical assemblies is dangerously compromised.
